

## Join.me best practices for activating audio

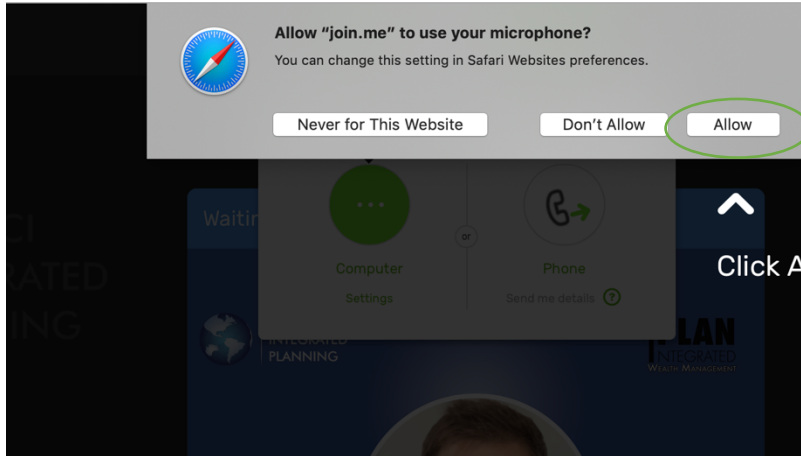

After clicking on the join now link, the easiest way to join the meeting is to click the "Join with browser" link on this page. (unless you have downloaded the program already)

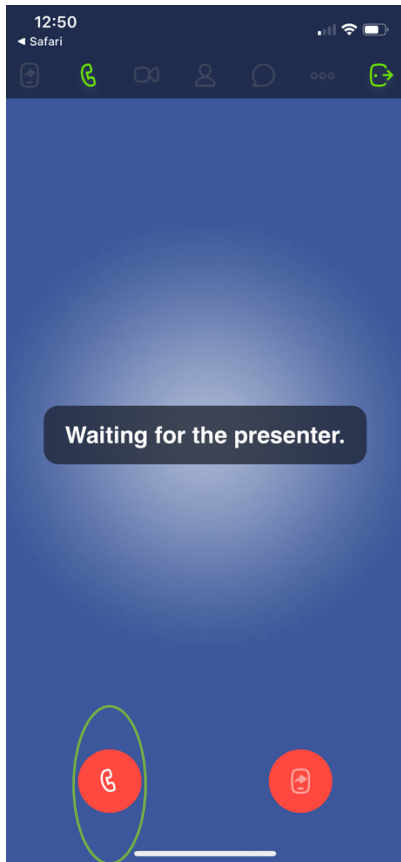

Once on the meeting page, you will need to enable audio by clicking the picture of the microphone.

If your computer has speakers, it is easiest to click on the icon of the computer. Note: you will need to allow join.me to access your microphone— you will be muted by the host once in the meeting. Alternatively you can click the phone icon and join audio by telephone.

Your browser will prompt you to allow join.me to access your microphone. You must permission this to be able to hear audio.

On a mobile device or tablet, you will need to join by the join.me app. Once you have entered the meeting number, be sure to permission audio using the red phone icon.
